Strong demand pushes gross margins to all time highs; PO to \$605

Reiterate Rating: BUY | PO: 605.00 USD | Price: 547.75 USD

Datacenter strength offsets seasonality

We expect STX to report F3Q26 rev/EPS of \$3.02bn/\$3.70, above Street at \$2.94bn/\$3.48 after the market close on Tues., Apr 28. We see continued strength in data center revenues which should offset the typical March quarter seasonality seen in the edge IoT markets. In our bottoms up build-up (available to institutional investors by request), we estimate STX shipped about 32 exabytes of HAMR in the quarter (~1mn drives) and a total of 186 exabytes. For C26, we model 7mn HAMR units to be shipped (with 1mn being Mosaic 4+). We model F3Q GM of 45.5% (above Street at 44.6%). Reiterate Buy on secular demand from Cloud, revenue & margin improvement leading to positive estimate revisions in the I-t, and a path to higher capacity HAMR HDDs.

Modeling GM of 47.3% for F4Q on \$3.2bn of revenue

We model F4Q rev/EPS of \$3.2bn/\$4.20 vs. Street at \$3.17bn/\$3.89. We see GM expanding sequentially every qtr in F26. We model F4Q GM up 180bps q/q to 47.3%, and F4Q OM up 240bps q/q to 38.3%. We model about 2mn HAMR units for F4Q. STX continues to benefit from increased visibility from I-t contracts (we expect STX has orders to cover nearline capacity for C26 and has some POs for first part of C27 as well). We expect STX to guide F4Q rev to \$3.2bn +/- \$100mn and EPS to \$4.10 +/- \$0.20.

HAMR qualifications on track, incremental margins high

We model incremental margins above I-t target of 50%. Two of STX's customers have finished qualifying its 40TB HAMR drive. GM benefits from the strong pricing environment, from cost reduction in moving from PMR to 4th gen HAMR 30TB drives and then to the 2nd gen 40TB HAMR drives. Any incremental supply (if possible) in a qtr can be sold at market price (higher than contract price) and could drive upside.

Raising estimates, PO moves to \$605 (from \$450)

F26 rev/EPS move to \$11.7bn/\$13.65 from \$11.4bn/\$12.97. PO moves to \$605 (from \$450) on 25x (prior 23x) C27E EPS of \$23.92 (prior \$19.18). We use a higher multiple on increased confidence in positive est. revisions over the I-t, and sustainable margins.

Company Sector

IT Hardware

Company Description

Seagate Technology (STX) designs, manufactures and markets hard disk drives for use in enterprise storage, servers, desktops, laptop computers, and other consumer electronic devices. It also has a growing solid state drive and storage systems portfolio. The company sells its products directly to OEMs, as well as distributors and retailers, and its production capabilities are vertically integrated.

Investment Rationale

We expect revenue and earnings to inflect higher as legacy market headwinds become smaller and mass capacity needs increase net of any cannibalization from Flash. We expect overall industry margins to improve and strong shareholder returns to continue. We rate STX Buy.

Price objective basis & risk

Seagate Technology (STX)

Our PO of \$605 is based on 25x our C2027E EPS estimate of \$23.92. This multiple is above the high-end of its historical P/E range of 7x-13x, and is warranted in our view as earnings momentum turns positive and peak earnings can be higher than historical peaks. The multiple balances near-term headwinds against the return of a more rational HDD industry and return to revenue and EPS growth.

Downside risks to our price objective are: (1) further unit declines in desktops and notebooks, (2) worse than expected industry pricing, (3) increased usage of NAND flash, (4) share loss to WDC in the enterprise HDD market, and (5) degradation of cash position and potential violation of credit facility covenants. Upside risks are: (1) significant pickup in high capacity/nearline HDDs, which could drive ASPs and gross margin higher, (2) improved technological advantage over NAND flash so as to reduce SSD penetration, (3) consumer PC refresh cycle, and (4) improved free cash flow generation.

Equity Investment Rating Distribution: Global Group (as of 31 Mar 2026)

Coverage Universe	Count	Percent	Inv. Banking Relationships ^{R1}	Count	Percent
Buy	1993	55.76%	Buy	1186	59.51%
Hold	821	22.97%	Hold	509	62.00%
Sell	760	21.26%	Sell	400	52.63%

^{R1} Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster ^{R2}
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

^{R2} Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. Coverage Cluster is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

All opinions, projections and estimates constitute the judgment of the author as of the date of publication and are subject to change without notice. Prices also are subject to change without notice. BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.

Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.

Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.

In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.

Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.
